24-hour nurse-managed care/walk-in clients:

The nurse is responsible for client triage and will assess & evaluate your condition to determine next steps in your care which, following assessment may include:

1. assessment and discharge; or
2. assessment, treatment and discharge; or
3. referred and transported to a regional care site

When you are discharged home, instructions will be given to follow-up with your physician. If your condition worsens, instructions will be given to call 911 immediately or go to the nearest open emergency room department.

Medical Clinic - Vita is a well-equipped clinic offering comprehensive, professional medical care by qualified physicians providing primary care focusing on prenatal, women's health, geriatrics and family medicine. A chronic disease team works collaboratively with physicians providing educational services to clients.

Advance access improvement team ensures:

- » better access to health care services
- » shorter wait times for, and at appointments
- » option to book 'same day' appointments
- » opportunity to discuss several concerns during one visit
- » early identification of health issues

InSixty Cancer Patient Journey Initiative - is to shorten the time interval from suspicion of cancer to first treatment to 60 days.

Medical Clinic Hours of Operation

Monday-Friday | 9:00 a.m.-4:00 p.m.

Saturday | 9:00 a.m.-12:00 p.m.

T 204-425-3372

Electronic Medical Records allow for:

- » immediate accurate & secure information about your health care status available to all members of your health care team
- » rapid access to data ranging from annual patient physicals, lab reports, test results, medication records and diagnostic images
- » reduction in potential for adverse drug interactions due to electronic prescribing and record-keeping
- » more time to focus on patients
- » improved care through safer, more accurate and complete information shared amongst all health care providers
- » reduced wait times for appointments, procedures, lab test results, clinical diagnosis and access to community health care services.
